

STILL HOLDS HOPE FOR MISSING GENERAL—Mrs. William F. Dean (left), wife of the U. S. 24th Division commander reported missing in action, is shown in her Berkeley, Calif., home with her daughter, Mrs. Robert C. Williams. Shortly before he disappeared in the Taejon area, Maj.-Gen. Dean, who since has been awarded the Congressional Medal of Honor, sent his wife the Korean art figure she holds. Mrs. Dean has never given up hope for her husband's safe return.

Anson Ladies Night Attended by Locals

Mr. and Mrs. I. R. Huchingson, Mrs. and Mrs. B. V. Newberry, Mr. and Mrs. Henry Allbritton, and Mr. and Mrs. J. H. King attended the Ladies Night staged by the Anson Lions Club Tuesday night.

Gordon Bennett, assistant to the president of McMurry College and former Hamlin resident, was the speaker of the evening.

POP AT 77—The 77-year-old Sultan of Johore is shown strolling a street in London. Presumably, he is headed for a cigar store as his wife, the 34-year-old former Marcelle Mendel, had just presented him with a six-pound daughter, his fourth child. The eldest of his three sons is 60.

Thieves Ransack Sylvester Stores, Another at Neinda

Burglars were active in the area surrounding Hamlin Tuesday when the J. E. Brown store at Neinda and Dickerson Grocery and Combest Drug Store at Sylvester were entered.

The Tuesday night burglary is the second robbery of the Brown store in the past two weeks. Entry to the store was gained through a window and a small safe was removed to an open field where a chisel was used to open it. Other loot was about \$20.00 in change from the register, meat, cigarettes and a small amount of Tide. Deputy Sheriff J. N. McGinnis of Fisher County made preliminary investigation of the burglary and was unable to find tracks due to the snowfall.

The Dickerson store was entered through the front door by shearing the lock with a bolt cutter. Merchandise taken included beef, bacon and eggs and cigarettes.

The Combest store was entered through a connecting door from the Dickerson store and cash, cigarettes and nylon hose were taken. The Sylvester robberies also offered no clues because of the snowfall and McGinnis and Sheriff Wilkins of Fisher County are working on the case.

Roscoe Whips Pied Pipers On Court

In a nip-and-tuck basketball game at the Elementary School gymnasium last Friday night, the Roscoe Plowboys demonstrated a brand of floor play that would not be denied and downed the Pied Pipers of Hamlin by a score of 23-21.

The Plowboys employed a pass and run game that kept them continually on the move and the Hamlin defenders were taxed to cope with the smooth execution of their plays. Archie Hunter, Roscoe center worked his way under the basket and deftly executed a delayed shot at the basket that tallied 15 of his team's final count. W. T. Stapler, chief scoring threat for the Pipers in recent games was so well guarded that he was compelled to yield scoring honors to Robert Fletcher for Hamlin with six points. The small score tallied in the game is an indication of how well the ball was controlled throughout the contest.

In the B game the fans were treated to another close fray and the advantage see-sawed throughout the game. Final tally brought a 40-39 victory to the Roscoe B team and Shuler of Roscoe was high point man with 11 markers. Glenn Smith of the Hamlin squad pressed him closely with 10 points and missed an opportunity to tie when he failed at a free throw try near the close of the game.

The Pipers were idle on Tuesday night and will go to Snyder to engage the district leaders to night. Snyder has been the surprise team of District 6-A and teams over the district are seeking to knock the leaders from their place in the sun.

Next Tuesday night will find the Pipers in Colorado City to play the Wolves.

March of Dimes Drive In Spurt As Closing Looms

On the eve of close of the annual March of Dimes funds solicitation campaign to aid that organization in their fight against polio, Starr Inzer, chairman of the Hamlin campaign, announced that approximately \$1,350.00 had been subscribed.

Inzer expressed himself as still hopeful that the \$1,500 goal for Hamlin would be reached when a final audit is made of the funds obtained.

Mail contributions have not reached the total that was anticipated from that source and it is believed that final receipts from this source will enable the Hamlin community to compare favorably with other comparable districts.

REPAYING A DEBT—One of the first New Yorkers to answer a Red Cross appeal for blood donors was 21-year-old Sgt. Martinez of Brooklyn. Wounded in the Korean fighting last September, Martinez told nurse Madge D'Alessandro, as she accepted his blood, "I got blood at the front and I saw how blood saved the lives of boys in Korea. I think I ought to give some back."

Lions Take Part In Kerrville Campsite

Members of the Hamlin Lions club voted at their Tuesday luncheon meeting to purchase a life membership in the crippled children's summer camp project at Kerrville. Purpose of the camp is to provide a summer outing site for handicapped children as a substitute for the many camps which are maintained for sound children.

It is explained in literature prepared for the project, that children who are crippled are not fitted for participation in the sports and other activities of regular camps, and the Kerrville project will provide a planned activity that will conform to their handicaps. The camp, when built, will accept enrollment from children recommended by different Lion member clubs.

No other program was scheduled for the luncheon and remaining portion of the meeting was devoted to discussion of civic needs. Guests were Leroy York of Abilene and R. P. Adams, member of the high school faculty.

B. V. Newberry was elevated from his second vice presidency to the position of first vice president to fill the vacancy resulting from the removal of Clyde Angel. Claude Lancaster also stepped up a notch to second vice president.

CORRECTION

Last week's Herald left a impression that Howard Food Markets Jeep delivery wagon was parts worn—this was not at all what The Herald meant. It meant that with the military production beginning to go full blast Jeep parts were liable to become short or unobtainable. Our apologies to all concerned.

Oil Activity Lags With Coming of Cold Snap

BULLETIN

Starr Inzer reported to The Herald that collection of the iron lungs which had been placed as coin depositories on the counters of various stores in Hamlin had netted an additional \$162.55 to the March of Dimes fund.

Addition of this amount to the total previously reported brings the Hamlin contribution past a \$1,500.00 goal which had been set by Inzer.

To most of us our memory is
 the thing we forget with.

MY SON, MY SON—After a 42-year separation, 83-year-old Isaac Neubart was reunited with his only surviving son, Leon, who arrived in New York with his wife and child aboard the Gen. Blatchford. Leon was located in Germany by the Hebrew Immigrant Aid Society. He was six months old when last seen by his father and the only member of the German clan to survive World War II.

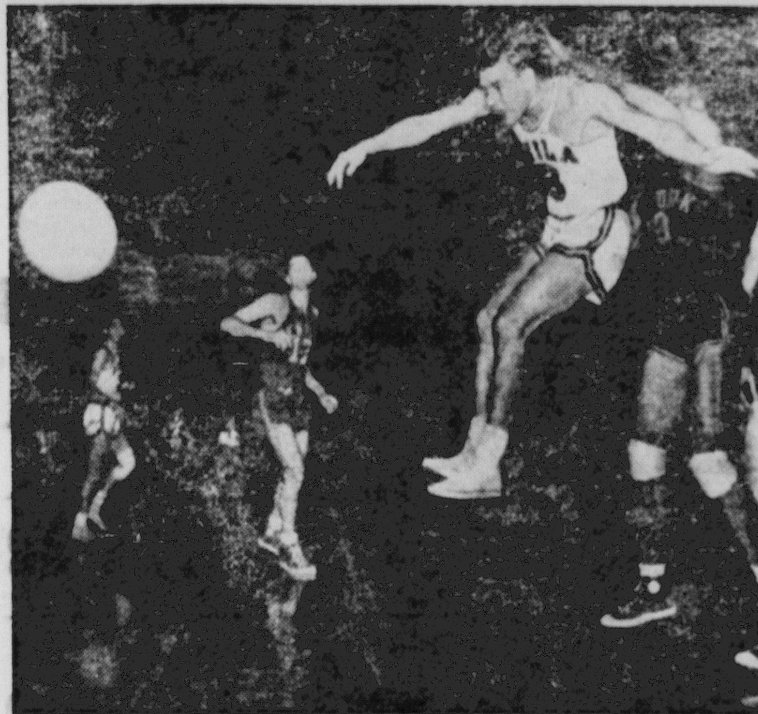

TYPING DOG STORY—Lady Bunny II, a red cocker spaniel who lives on Cook's Island in the Florida Keys, takes to another kind of keys as she types her life story. After all, wasn't H. Allen Smith's novel about a baseball-playing cat a huge success? Lady Bunny plans to title her great American novel "Bow," in an attempt to wow her public.

TEST ROAD FOR TRUCKS—U. S. highway engineers recently subjected a section of a heavily traveled state highway in Maryland to extensive tests in an effort to determine whether trucks damage the nation's roads. At left, an engineer measures a "typical crack pattern" caused by the multi-axled behemoths. After the equivalent of 98,000 trucks rumbled over the concrete test stretch, measurements (right) indicated the road had sunk almost three inches below its original level. As a result, highway officials recommended a maximum axle weight limit of 18,000 pounds for the cargo carriers.

WEST OF THE BORDER—Though the threat of World War III is hanging over Europe and the world, there seems to be little evidence of tension along the West German-Russian zone border-line in such towns as Setzelbach, Germany, where this farmer plows his fields only 300 yards from the Russian zone. Other farmers, who have farmland in the Russian zone, require special passes to cultivate fields over the boundary. All are complacently resigned to the fact that tomorrow dreadsnaughts of war may rumble over their crops.

JUMPS INTO JUDO HOLD—Pro basketball George Senesky of the Philadelphia Warriors appears to be held by the seat of the pants and the scruff of the neck by Nat Clifton (No. 19) of the New York Knickerbockers. Clifton was caught in this bar-room bouncer role when he reached out to block Senesky's attempted field goal. Actually, he is not touching Senesky.

FOOTBALL HALL OF FAME—At the annual meeting of the National College Athletic Association, held in Dallas, Tex., plans for a proposed National Football Hall of Fame were discussed. Above is an artist's conception of the proposed building, which would be erected in New Brunswick, N. J.

IN THE WAKE OF WAR—Bewildered Korean war orphans, some with tears in their eyes, wait in the fuselage of a giant C-54 transport of the U. S. Far East Air Forces for evacuation from Seoul to a haven in Southern Korea. One thousand of these children were taken out by air while thousands of others, old as well as young, made their way south the best way they could, usually afoot.

GERMAN POLICE IN TRAINING—Newly regimented German labor service units, training to be industrial policemen, get set up in their bivouac area in the Grunewald woods, U. S. sector. The carbine-equipped troopers are being trained so they may replace American soldiers on guard duty at secondary military installations.

SCHOONER OF MILK—A Venetian milkman with a "floating fresh milk service" makes a sale to a housewife on the famous Grand Canal in Venice while his cow takes in the city's scenic wonders. The door-to-door "direct from the cow" milk service enables the housewife to buy only the amount she needs.

SEA-GOING STRETCHER BEARER—The crewman above, holding a boathook with both hands, just stepped off the back of the U. S. Air Force's new Rescue Boat Mark I to haul in a survivor. The water is plenty deep but a hinged tailgate (inset) provides crew members with a working platform and protects the survivor from the propeller. After slipping a wire stretcher under the victim and easing him aboard the 40-foot, twin-engine craft, the crew will administer emergency medical treatment. This demonstration took place near Washington, D. C.

SHIVERS GREET'S ECONOMY COMMISSION DIRECTOR

Dr. Stuart A. MacCorkle (left), head of the University of Texas Institute of Public Affairs, is congratulated by Governor Allan Shivers on his selection as executive director of the Texas Economy Commission. University regents have granted Dr. MacCorkle a leave of absence to direct the commission's research into the Texas state government and present a reform program of efficiency and economy.

A PIPE BUT NO PEACE—A Korean native muses on the tides of war with pipe in hand, while a train, loaded with battle-bound U. S. tanks, rumbles by. The column of smoke rising from the locomotive and the severed cables dangling from the shrapnel-scarred telephone pole at right serve to emphasize the elderly gent's inanimate pose.

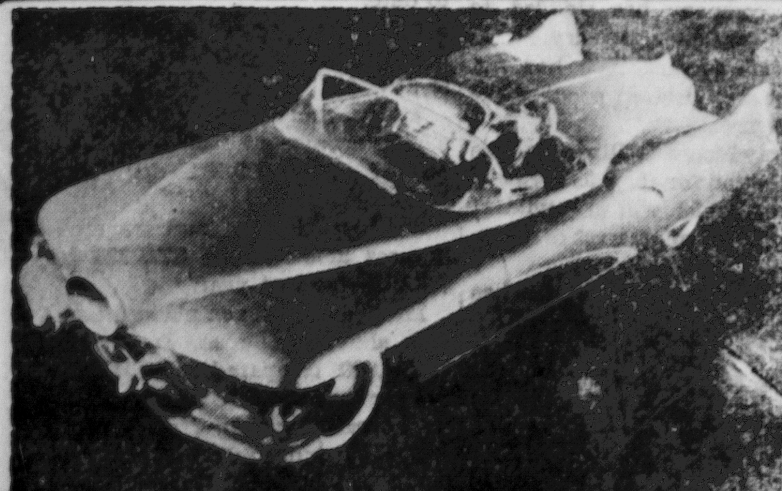

TOTS DON TOGS AND ASSORTED EXPRESSIONS—At Chicago's famed Merchandise Mart, the small set modeled summer clothes with mixed emotions. One-year-old Sherry Ann Bobek (left) belligerently posed in a polka dot diaper cover. Beside her, Danny Conway, age three, was downright defiant as he displayed leopard trunks. Resolutely unhappy was Sharon Brookwater, also three, who found that her ruffled red panties itched. Five-year-old Kathleen Ludwig was a picture of exuberance in her beach ensemble—a reversible jacket, while Leslie Gaguer, wearing a plaid denim sun suit with bare midriff, stood poised like the eight-year-old lady that she is.

Powered by a 500-pound V-8 engine, the Le Sabre's twin-tail fins inject methyl alcohol and gasoline into the engine for extra power boosts. The body is constructed of aluminum, magnesium and other expensive alloys and stands less than 37 inches high but has a six-inch ground clearance.

DR. S. A. KNAPP

"What a man hears he may doubt,
what he sees he may possibly doubt;
but what a man does himself he cannot doubt."

When Dr. Seaman A. Knapp came to Texas in 1903 to conduct the first successful farm demonstration on the Walter C. Porter farm on Poetry Road near Terrell, he fathered the nationwide system of agricultural extension work which today has county agricultural agents and home demonstration agents throughout the nation and has done much for the development of our agriculture. In Texas today there are such agents working in 252 of our 254 counties. That first demonstration of methods to combat the boll weevil, which was threatening to wipe out Texas cotton, was successful. (The merchants of Terrell had put up a \$1,000 bond to protect the landowner in case it failed.) The federal government took over the work in 1904 and started the expansion which has developed into one of the most successful adult education programs in the world. A strong believer in the value of demonstration, Dr. Knapp always reminded his followers: "What a man hears he may doubt, what he sees he may possibly doubt; but what a man does himself he cannot doubt."

In conduct do not make trifles of trifles. Regard the smallest action as being either right or wrong, and make a conscience of little things.—Spurgeon.

Boston Baked Beans Served With Molasses Distinction

Come Saturday night, many a New England household sits to a repast of appetizing, molasses-sweetened baked beans plus brown bread. Since to savor these two foods is to pass the word along, enjoyment of them has spread across the country. The molasses called for in the baked bean dish is unsulphured...the sweet, aromatic kind New Englanders have been using since colonial days.

Here are the steps to make a savory baked bean dish for the family. The canned brown bread may be sliced and served hot or cold.

Baked Beans (Quick Method)

4 cups (2 lbs.) dried beans	1/4 teaspoon pepper
1 large onion	2 teaspoons dry mustard
4 teaspoons salt	2 tablespoons Worcestershire sauce
3/4 cup unsulphured molasses	1/2 pound salt pork

Wash beans. Cover generously with cold water; soak overnight. Add onion, salt, and if necessary, additional water to cover beans; bring to boiling point in covered saucepan. Remove onion; reserve. Simmer beans until tender. Drain; save 3 cups bean liquid (add additional water to make 3 cups, if necessary). Mix bean liquid with molasses, pepper, mustard, and Worcestershire sauce. Turn beans, onion, and salt pork into large casserole or bean pot. Add liquid mixture. Cover. Bake in moderately slow oven (325°F.) 1 1/2 hours. Uncover. Lift pork to top of beans; bake 20 to 25 minutes to brown pork. YIELD: 16 servings.

Old Fashioned Baked Beans

Simmer beans only until beans are half done (skins break). Bake in slow oven (500°F.) 6 to 8 hours.

Nothing Better Than Good Food, Says Ohio Man

If a man isn't able to eat the foods he likes he's in mighty sorry shape—imagine going through life without being able to enjoy a fine big platter of bacon and eggs. That is the way

Joseph N. Damillot, 3414 E. 5th Street, Dayton, Ohio, used to be, but since he has been taking HADACOL, he says he feels just fine and is able to enjoy lots and lots of fine foods. Mr. Damillot found that taking HADACOL helped his system overcome a deficiency of Vitamins B₁, B₂, Niacin and Iron.

Here is Mr. Damillot's statement: "My first bottle of HADACOL convinced me that HADACOL was what I needed for the gas on my stomach at nights. I could not keep food on my stomach, but after the first bottle I was going great. Now I eat bacon and eggs, and other foods that never would stay with me. I also can sleep well at nights. Thanks to HADACOL. I will never be without it, and can recommend it to all who suffer with the above ailments that I had. I know because I have suffered for quite some time."

GOOD HEALTH

Answer to Question No. 1:

1. We're making amazing
progress in defeating many dis-
eases. For instance, the death
rate from tuberculosis in 1930
was 71.1 per 100,000 but was re-
duced to 30.0 in 1948; the 1930
rate for syphilis was 15.7 while
the 1948 rate was 8.9; pneumonia
and influenza's 1930 death rate
was 102.50 but by 1948 had
dropped to 38.7. During these
years appendicitis' death
rate dropped from 15.2 to 2.9.

On the other hand, the death
rate from diseases of the later
years, such as cancer, diabetes,
and heart diseases, is rising be-
cause more people now live long
enough to contract these dis-
eases.

Answer to Question No. 2:

2. Mumps is a disease of child-

hood, characterized by rise of
temperature and painful swell-
ing at sides of face. It is fre-
quently epidemic (attacking con-
siderable numbers in a com-
munity). When young male
adults get mumps, it can be
serious and needs medical care.

Answer to Question No. 3:

3. An epidemiologist is an ex-
pert in determining where an
epidemic has started, where each
individual acquired the infec-
tion, the possibility of others be-
coming infected and what con-
trol measures are needed. This
type of research is being used
with increasing frequency in the
fight against all infections.

State Health Officer In Discussion of Rheumatic Fever and Care to Follow

Rheumatic fever is serious be-
cause it may affect the heart,
says Dr. George W. Cox, state
health officer.

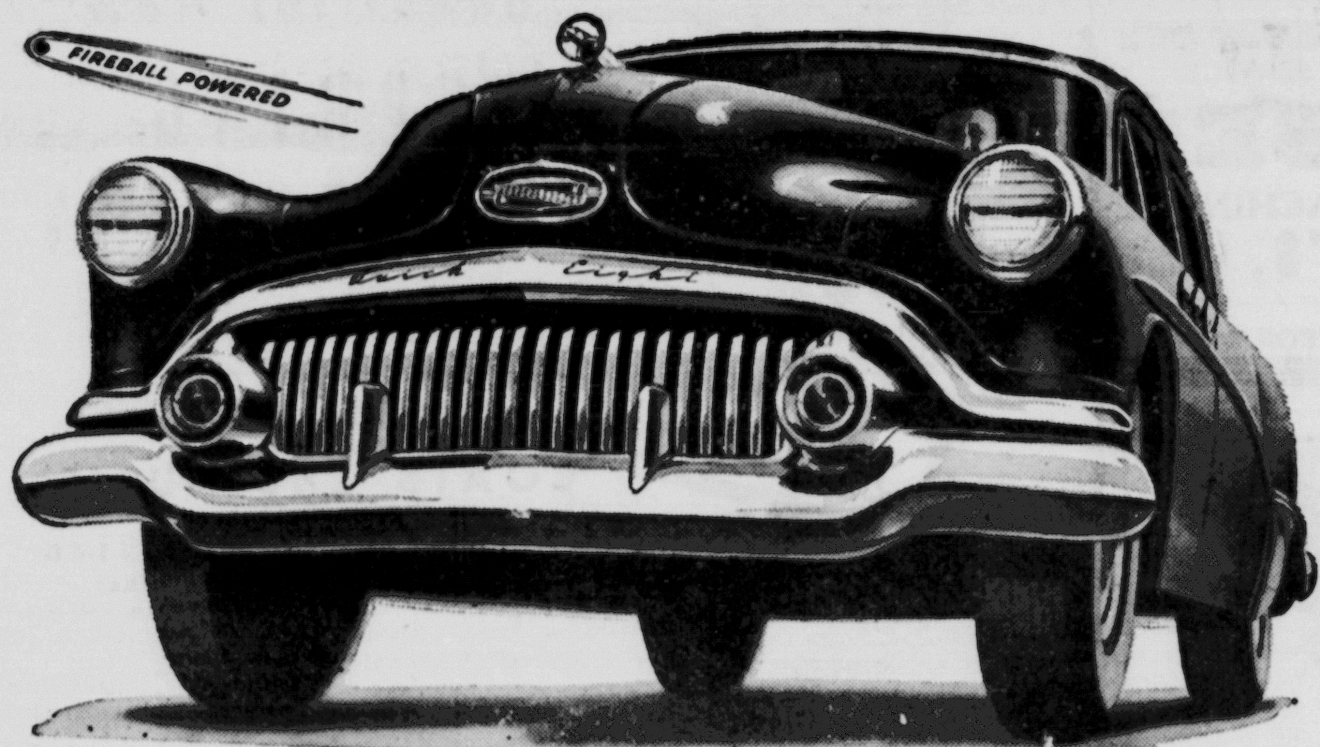

Age is important. Rheumatic
fever usually begins in childhood
at about the age of five or six,
although adults may have it.
There is a susceptibility to the
disease which causes rheumatic
fever to be more common in
some families than others. The
other factors which may favor its
onset, combined with an individ-
ual susceptibility, are frequent
chilling, damp or overcrowded liv-
ing quarters, and a poor diet.

It is also known that one at-

tack of rheumatic fever does not
protect a child from future at-
tacks as, for example, one attack
of measles does. On the contrary
rheumatic fever tends to recur.
Repeated attacks are more likely
to damage the heart. It is not
communicable as chickenpox and
measles are, and there is no dan-
ger of catching it by being in
contact with a child who has it.

The physician is the only one
whose judgment can be relied up-
on in this matter, and his direc-
tions should be followed exactly,
no matter how well the patient
feels or how slight the attack.

Good nursing is important for

Long-term Investment that pays daily dividends

THESE days thoughtful people turn their minds
to the durability of things they purchase.

But it's rare when doing your duty turns out to be
the best way to satisfy your heart's desire.

That's what's so marvelous about this '51 Buick.

If you picked a car just for the lift it gives you—
your pride in its power—or its generous comfort—
you couldn't make a better choice.

But make note of this:

*That gleaming new push-bar forefront, which
grooms your eye with flashing beauty, contains 25
grille bars made of stamped steel, individually
mounted to "give" and come back unharmed.*

Combined with a massive, wrap-around bumper,
fortified by two stalwart "bumper bombs" and
two added uprights, it gives unsurpassed
protection.

Springs of stout spiraled steel on all four wheels
let your wheels curtsy over bumps, while you ride
level as a lance. But they also need no servicing,
and breakage is virtually unknown.

Buick's great-powered engine is a Fireball, won-
drously lively and eager at the mere touch of your
toe—but it also wrings extra power from every
drop of fuel, and has the mechanical perfection

that comes only from years of experience with this
basic design.

Dynaflow Drive gives you effortless smoothness of
control—but it also eliminates clutch repair bills,
saves tires, eases strain on the whole driving
mechanism, from engine to differential.

The road-steady gait of a Buick assures relaxed
security—and is also evidence that you have a
durable, deep-silled, X-braced frame beneath you.

However you check it, you'll discover this: *The
things that make you yearn for a Buick on first
acquaintance, are the very same things that make
Buick such a smart long-time buy.*

Better see your Buick dealer—soon.

The child who has had rheu-

his home and school life, just as
other boys and girls do. While
it is important to provide the
child with healthful surroundings
and to encourage him in health-

done by overemphasizing the phys-

If serious heart damage exists,
and his activity is limited, he
must learn to stay within these

activities must be rigidly re-

Orange and Semi-Sweet Chocolate Make Novel Flavor Combination

Newest of dessert treats combine the flavors of fresh orange and semi-sweet chocolate. A delightful way to enjoy this flavor harmony is in a home-made orange cake that can be iced with a delicious chocolate frosting made with semi-sweet chocolate morsels, or the cake can be topped with ice cream and sauced with chocolate. Also included is a simple Chocolate Duet recipe that makes either frosting or sauce, depending on the amount of milk added.

Orange Cake

3 cups sifted cake flour
3 teaspoons baking powder
1/2 teaspoon salt
3/4 cup shortening
1 cup sugar
3 eggs
1/2 cup orange marmalade
2 tablespoons grated orange rind
1 cup orange juice

Sift flour with baking powder and salt. Cream shortening, add sugar gradually, blending together until light and fluffy. Add eggs one at a time, beating well after each addition. Stir in marmalade and orange rind. Add flour alternately with orange juice, mixing well, ending with flour. Turn batter into well greased pan (10"x15"x3"). Bake in a moderate oven (350° F.) 30 minutes. Cut cake into squares, top with slice of ice cream, and serve with chocolate sauce, or frost cake with chocolate frosting. If desired, top with whole or chopped nuts. YIELD: 24 squares.

Chocolate Duet (Frosting or Sauce)

1 package semi-sweet chocolate
2 tablespoons butter or margarine
1 cup sifted confectioners' sugar
3 to 4 tablespoons hot milk, for frosting
1/2 cup hot milk, for sauce
1 teaspoon vanilla

In top of double boiler put semi-sweet chocolate and butter. Heat until melted and mix until smooth. Remove from heat. For frosting add milk and sugar alternately, adding enough milk to make a spreadable consistency. Stir in vanilla. For sauce, increase milk to 1/2 cup. YIELD: Frosting for top of 10x15 inch cake, or 1 1/2 cups chocolate sauce.

North Colorado Association Meets in Abilene Church With Hamlin Group Participating

Carbon Copies Are Twice as Nice

BY EDNA MILES

THERE'S nothing like a mother-daughter ensemble to make a little miss feel as grown-up and responsible as her mother.

The carbon copy creations can be purchased in both dressy and informal styles and help to instill in the small set a real appreciation of clothes and their care.

Many mothers wisely make washing, ironing and mending a joint chore and this is, of course, much more fun when both costumes are identical.

An example of the pert sets now available may be seen at left in the floral printed percale fashioned in Florida. Both dresses feature a dainty bodice ruffle and crisp pocketed organdy apron.

For lounging, the cotton housecoats at right ring the bell twice. The ladylike robes are done in a brilliant floral print on a dark ground, bound and buttoned in contrasting color. Full, flattering skirts finish the luxurious quilted robes.

If a number of big-small sets are kept on hand, your daughter may be encouraged to cultivate taste in choosing a costume for the day.

In any case it is certain that when mother and daughter travel together in identical costumes, they will win approving double-takes wherever they go.
